

The DUTCH-BELGIAN SOCIETY FOR *IN VITRO* METHODS

INVITROM

Context

- NVT section on in vitro toxicology
- Role in organisation of *in vitro*/non animal initiatives
- European context:
 - ETCS
 - ESTIV
 - EUROTOX
 - ECOPA
 - IVTIP

Mission

- the promotion of
 - the development
 - the application
 - the acceptanceof *in vitro* models in
biomedical research

Aims and tools

- Aims:
 - exchange of information between academia, research institutes, industry and authorities
 - stimulate and facilitate further co-operation between research groups
- Tools:
 - meetings
 - working groups
 - internet site / e-mail discussion forum

- Internet site:

www.invitrom.org

- E-mail discussion forum:

THE medium for contacting the membership!

Symposia

- **2007, Oss**
***Applications of human tissues
in in vitro research***

- **2008, Brugge**
***Towards Better Reliable In
Vitro Methods"***

Working Groups

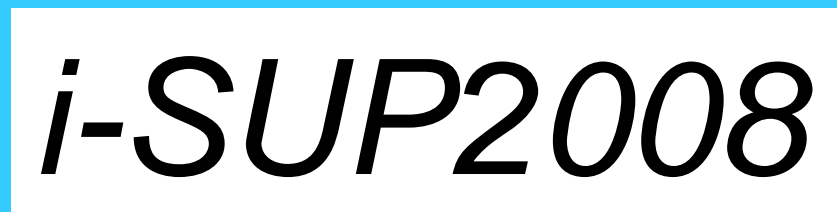

- Human Tissue
- Mechanistic Based Models
- Serum free Cell Culture
- Slice Methods and Preservation
- Biologicals/Vaccins
- In Vitro Disease Model
